Dear Staff and Faculty Members,

Earlier this year, I commissioned a group of eight teachers and eight school administrators to create a new framework for developing positive student behavior in our schools. I asked these teachers and leaders to create a guide that would provide our students with clear expectations regarding their behavior and that would provide teachers and school leaders with effective measures to address inappropriate student behavior while building strong learning environments. It is with these objectives in mind that I am now forwarding our draft Behavioral Learning Guides to you for your review and comment.

I hope these guides to positive student behavior provide clear expectations for student behavior, outline specific methods and strategies to elicit positive social skills, and detail effective consequences and strategies to correct inappropriate student conduct. Please review these documents and provide me with any recommendations you may have with regard to making the Behavioral Learning Guides effective resources for developing positive school learning environments. Please forward your comments to me using any of the methods listed below by May 6, 2016.

- Email comments to BLG.Comments@hsv-k12.org
- Leave comments on the District’s webpage under Consent Order>Public Comments
- Provide written or oral comments to your school’s Behavioral Learning Guide teacher liaison
- Hand deliver comments to the front desk of the Merts Center, 200 White Street, Huntsville, AL 35801
- Send comments by regular mail to Merts Center, Behavioral Learning Dept., 200 White Street, Huntsville, AL 35801
- Leave written comments in your school’s Behavioral Learning Guide comment drop box
- Participate in the Teacher Town Hall scheduled for 4:00 pm on May 2, 2016 at the Academy for Academics and Arts auditorium

I look forward to working with you in the coming days to support positive school climates that further the development and success of all students.

Sincerely,

E. Casey Wardynski, Ph.D.
Superintendent

INTRODUCTION

Creating a positive school climate and culture starts in the classroom. Classroom management is integral to this process. The leaders of Huntsville City Schools, believe that the procedures contained in this document will better support our staff and our students in creating a positive school climate and culture in each of our schools.

PURPOSE OF THE BEHAVIORAL LEARNING GUIDE

The Behavioral Learning Guide includes proactive and responsive strategies for teachers, staff, and school leaders. It also provides guidelines for progressive, supportive Interventions and Disciplinary Consequences to address a broad range of student behavior. It is designed to accomplish the following purposes:

- To outline the rights and responsibilities related to student behavior of all stakeholders, including students, parents/guardians, teachers, staff, school leaders, central office staff and the Board of Education, recognizing that all stakeholders have a collective responsibility to support positive student behavior;
- To assure that adults will teach, model and reinforce the skills necessary for all students to meet HCS' behavioral expectations;
- To provide clear and explicit, age-appropriate expectations for student behavior;
- To identify behaviors that are inappropriate at school and school-sponsored events;
- To equip teachers, staff, and school leaders with a range of reasonable, proportional and consistently applied Interventions and consequences to respond to inappropriate behavior and to support positive behavioral changes in students;
- To ensure students are treated fairly and without unlawful discrimination;
- To establish a partnership with parents/guardians because they are essential to the behavioral and academic success of students.

CREATING A POSITIVE SCHOOL CLIMATE

All faculty, staff and school administrators are committed to inspiring, developing and engaging every student to become career and/or college ready. To support this commitment, District leaders are working with faculty, staff, and school administrators to create a positive school climate and culture in each school. A positive school culture is one in which students, parents/guardians, and staff work together respectfully to maintain a positive, orderly, and safe learning environment focused on both teacher and student led learning. A positive school climate is only possible when faculty, staff, and school leaders teach expected behaviors and consequences for misbehaviors to all students and provide support and interventions to address the causes of inappropriate behavior.

After teaching and modeling for students these behavioral expectations, school staff must administer the disciplinary process in a fair and consistent manner. The disciplinary process should include opportunities for school staff to provide students with corrective feedback about their behavior and, where appropriate, for students and families to participate in restorative practices. Creating a positive school climate and culture in each school will require the combined efforts of students, parents/guardians, faculty, staff, school leaders, district leaders and the wider community. To foster these efforts, it is important that school personnel work to develop relationships with students and their families. Building and maintaining positive relationships with families ensures that there is a combined effort in creating positive school climates in every school. This combined effort is best for our students because our schools perform best when all students act as leaders, and everyone, including parents/guardians and staff,

works together and respects each other's role in preparing students for college and careers.

A SHIFT IN PRACTICE

This document is designed to reflect our mission to inspire, develop and engage all students in becoming career and college ready; creative problem-solvers; active citizens; and life-long learners in a globally connected society. To meet our mission, we will hold all students to the same high expectations, but provide different kinds of support to students, based on their specific needs, to meet those expectations. Our expectation is that every student will graduate and will leave HCS as problem-solvers, critical thinkers, and life-long learners in order to be successful in our globally connected society. We know that we need to provide teachers comprehensive supports so that they can adopt new practices to support students.

This document contains new procedures and tools designed to support teachers with keeping all students engaged in learning and reducing disparities in disciplinary consequences and academic performance. Unlike prior codes of student conduct, this document is a guide, and not a rigid code/zero-tolerance policy. This document explains the role of the parents/guardians, students, and staff. It incorporates, in a user-friendly way, our Strategic Plan, and states our philosophy, core values, model of student behavior, rights and responsibilities of students, various levels of supports, and procedures for using corrective strategies.

THE BEHAVIORAL LEARNING GUIDE: A RESPONSE TO RESEARCH

National and Local Data

National research on school discipline reveal disturbing findings concerning more traditional approaches to school discipline:

- African-American students were disproportionately likely to be removed from the classroom for disciplinary reasons;
- Students with particular educational disabilities were disproportionately likely to be removed from the classroom for disciplinary reasons; and
- *Students who were suspended and/or expelled, particularly those who were repeatedly disciplined, were more likely to be held back a grade or to drop out than were students not involved in the disciplinary system.*

HCS' discipline and academic data reflects the same disparities found nationally. Consider the following examples from page 7 of the Court's April 21, 2015 Memorandum Opinion in the matter of *Hereford and the United States v. the Huntsville City Board of Education*:

- During the 2013-14 school year, African-American students tended to receive, on average, more serious consequences for similar behaviors to white students.
- During the same school year, African-American students were two times more likely to receive out-of-school suspension for similar behavior relative to white students who tended to receive a consequence such as in-school suspension, detention, or letter home.

We are not satisfied with the above statistics, and we know that we can improve. In addition to the local and national statistics listed above, there are other important instructional reasons for making changes to the discipline process, such as increasing instructional time for all students. Therefore, this document provides a comprehensive approach to supporting student behavior. It is focused on: keeping all students engaged in learning; reducing disparities in disciplinary consequences and academic performance; and increasing the amount of instruction time for **all** students.

Importance of Data

In the past, schools collected student disciplinary data, but the method for collecting data made it difficult to track the Disciplinary Consequences for behavior and Interventions provided to a misbehaving student. In order to support school personnel with the implementation of Positive Behavior Interventions and Supports (“PBIS”), HCS administration is currently developing a new, user-friendly computer application (the “Discipline Reporting App” or “DRA”) for school personnel to use for the collection of data about student behavior. The DRA is expected to be ready for District-wide implementation by the start of the 2017-18 school year.

The Discipline Reporting App will serve as a tool for helping teachers and principals track the record of Interventions provided to each student. By tracking teacher and administrator Response Strategies, Disciplinary Consequences, and Interventions, the DRA will track which actions are effective in shaping each child’s behavior, and this data will help school-level personnel respond to a student’s behavioral needs throughout the student’s entire educational career. For example, once implemented, school personnel will use the DRA to collect student behavior data including the Interventions that proved most effective for helping a given student. Information about a student’s identified needs and successful Interventions will be made available to the student’s next teacher(s), so the new teacher(s) may continue these Interventions for the student as needed. To ensure that each student has a clean slate for each school year, the school-based Problem Solving Teams will ensure that only the information necessary to support any student is shared with the student’s new teachers.

One of the fundamental reasons for the development of the Behavioral Learning Guides is the need for fair, consistently-applied consequences and support for students. To ensure this consistency, the District will randomly sample the disciplinary data collected at each District school, using both the DRA and other District-developed forms. The District will address any disparities that are presented by this random sampling.

SUPPORTING OUR TEACHERS: LINKING OUR TEACHERS TO RESOURCES

This document contains guidance for classroom teachers around expectations for classroom management and how to respond to student behavior. To ensure that our teachers have the tools necessary to meet the District’s expectations about classroom management and student behavior, this document has been hyperlinked to District resources. These resources will support teachers on issues pertinent to classroom management and engaging instruction. Each of these resource hyperlinks will provide teachers with content-specific supports such as videos, websites, example documents or copies of professional development materials. For example, one hyperlink will provide teachers with resources related to the implementation of Positive Behavior Interventions and Supports (“PBIS”). The District has made these resources available for all teachers to review as needed, and the District will update these resources as new resources are identified.

As you read this document, you will find that certain words are blue to signify that they contain a hyperlink. When viewing this document electronically, teachers can click these blue words and their browser will open to the resource related to that word. For instance, if teachers click on the acronym PBIS in this sentence, it will take them to a District PBIS resource. The hyper-linking is not complete at this time, but it will be complete prior to the start of the 2016-17 school year.

POSITIVE BEHAVIOR INTERVENTION AND SUPPORTS

All schools in the Huntsville City School System are expected to create positive learning environments where all students can experience academic, behavioral and social emotional growth. The structure used to create this environment is called Positive Behavior Intervention and Supports (“PBIS”).

Elements of PBIS

At the heart of the PBIS system are five (5) critical elements that contribute to making our schools positive places where children love to learn and teachers love to teach:

1. Behavior Expectations

Students must be provided clear and consistent expectations for their behavior, reflecting the following district-wide expectations:

Be Respectful

- Treat others the way you wish to be treated
- Take care of private and public property
- Solve problems peacefully
- Respect the right of others to be different from you and think differently than you

Be Responsible

- Take ownership of your actions
- Be on time and ready to learn
- Follow classroom and school rules
- Do/Produce your own work
- Be an active learner

Be Safe

- Behave in ways that make school a positive place
- Report bullying, harassment or unsafe incidents
- Refuse to spread rumors or gossip
- Find trusted adults who can mentor and support you

2. Teaching Appropriate Behavior

Schools must be intentional about teaching students what is expected of them at all grade levels and in all school settings. Faculty and staff will not only teach students the behaviors expected of them but will also model the expected behaviors on a daily basis as well. This requires teaching behavior at the start of each school year and throughout the year, as needed.

3. Celebrating Positive Behavior

When students meet the behavior expectations set for them, it is important to acknowledge their efforts and let them know why they are being acknowledged. Recognition of student achievement is important in the area of behavioral growth just as it is in the area of academic growth.

4. Responding to Behavior

When students do not meet the behavior expectations set for them, staff should use Response Strategies to stop the behavior and allow the student to regain self-control.

School personnel may also provide a Disciplinary Consequence that allows the student an opportunity to repair the harm resulting from his or her behavior while maintaining the safety of the learning environment and the school community. School personnel may also provide Interventions as needed to help a student from repeating an undesirable behavior or to help students who are victims of or witnesses to certain types of incidents.

When students demonstrate a pattern of behavior or more significant behaviors, school personnel must examine the underlying cause(s) of the behavior and provide the student with Intervention. Interventions address the underlying cause of behavior which may include unmet needs, lagging skills, ineffective instructional strategies, or environmental factors. When an exclusionary Disciplinary Consequence is used (i.e. in-school-suspension, out-of-school suspension), school personnel must pair it with one or more Interventions. In general, and in response to student infractions that do not involve acts of violence or serious or repeated behaviors, documented Interventions should be used before an exclusionary Disciplinary Consequence. When the exclusionary Discipline Consequence but does not lead to improved student behavior, school personnel and parents/guardians should work together to understand the root causes of the behavior and treat each incident of behavior as an opportunity to intervene responsibly in the life of a student who is clearly at risk of failing to become a college and career ready adult.

5. Use of Data

To be effective, schools implementing PBIS must systematically collect data about student behavior and use it to guide the teaching and support that takes place at the student level, the classroom level and the school level. School personnel must examine data on a regular basis to make sure that behavior practices are being implemented in ways that lead to positive and equitable outcomes for all students. As explained above, the Discipline Reporting App (“DRA”) is designed to help teachers and school administrators with this process. The SBS is currently being developed for implementation District-wide by the start of 2017-18 school year.

Positive Relationships

Research shows that positive relationships help children learn. Students are more likely to succeed when they feel connected to others in their school and classroom community and are less likely to behave in ways that disrupt the school environment.¹ School personnel will use skills and strategies to build positive relationships with students such as:

- Know your students’ strengths, personal struggles and cultural identities
- Communicate and model understanding and empathy
- Structure tasks for student success
- Reinforce behavior in a positive manner
- Use factual, objective language to define expectations and address behavior
- Ask open-ended questions
- Stay calm in tense situations
- Remain neutral whenever possible
- Model reciprocal respect whenever possible
- Engage the parent/guardian in your thinking about how to bring the best out of the student
- Repair broken relationships

Effective Classroom Practices

Foundational to supporting positive behavior in all students is the use of effective, culturally-relevant instruction. Research shows that there is a strong link between effective teaching practices and student engagement. Effective instruction is central to HCS’ purpose and is an integral factor in effective classroom management and in creating a positive learning climate that fosters social and emotional growth and academic achievement. In many cases, effective classroom management practices will reduce the occurrence of behaviors that require Intervention and Disciplinary Consequences. The Response Strategies, Disciplinary Consequences, and Interventions detailed in this document are driven by effective classroom management strategies such as:

- Effective instruction
- Well-established and practiced classroom procedures
- Verbal redirection or correction
- Problem solving with a student about his or her behavior
- Increasing teacher proximity to the student
- Using factual, objective language to define expectations and address behavior
- Changing student seating
- Reinforcing positive student behavior
- Re-teaching behavior expectations

When positive relationships and the use of effective classroom management strategies are insufficient to address inappropriate student behavior, more intensive Interventions are essential to support students in making meaningful, sustainable changes in their behavior. By using Interventions that engage students in meaningful ways, school staff members facilitate their students’ academic, social emotional and behavioral growth. Any student behaviors that fail to meet HCS’ expectations will result in school personnel using a Response Strategy and Disciplinary Consequence. For some student behaviors, school personnel will use problem solving, assessment, and Interventions.

¹ Blum, Robert. “A Case for School Connectedness.” Educational Leadership, April 2005

PROACTIVE MEASURES FOR CREATING A POSITIVE AND ENGAGING CLASSROOM CLIMATE

[This section is still under development, but please see the message below from Dr. Barbara Cooper, Deputy Superintendent, about the content that will be added to this document once it is finalized.]

Dear Teachers, Parents/Guardians, School Leaders, and Students,

Huntsville City Schools is committed to preparing all students to be successful in college and/or a career upon graduation from high school. We recognize that in order to continue pursuit of this goal, we should establish district-wide priorities for every school. All students should be taught by a well-prepared, resourced, supported and effective teacher. Our classrooms should be positive learning communities where daily, students are expected to meet and exceed high standards in all core and elective areas. This year we have learned many lessons through the implementation of the Code of Student Conduct. We recognize that instruction and student behavioral expectations should not exist as isolated entities and should instead be aligned as a part of our theory of learning. In order to create an environment for this to occur, we will include classroom expectations and professional standards for teachers within our Behavioral Learning Guide. This spring our Teacher Effectiveness and Behavioral Learning Guide Committees will convene jointly to ensure that we create an aligned document that supports the work of our teachers.

Huntsville City Schools has embraced the opportunity to create and ultimately implement a professional growth evaluation system for teachers and leaders that includes multiple measures of student growth and achievement. We formed a Design Team Committee to begin the process of developing an evaluation system for teachers and leaders. This committee is focusing on four key areas, Planning, Instructional Delivery, Assessment of and for Learning, and Learning Environment. These key areas are at the core of effective classrooms and will become the focus areas for creating a system of supports for our teachers.

The work of the Behavioral Learning Guide and Teacher Evaluation Committees will commence in May of 2016 upon completion of a comprehensive guide to support effective classrooms during the 2016-2017 school year. We will train our teachers on the tools and provide ongoing support for implementation. During next school year, the Behavioral Learning Department will create a professional learning community that will include a teacher liaison from every school. Members of this team will focus on successful implementation of the Behavioral Learning Guide and Teacher Effectiveness Tool. They will solicit ongoing feedback about implementation and attend meetings monthly to share concerns and suggestions for additional support. We believe that by providing opportunity for collaboration, professional learning and ongoing support for the Behavioral Learning Guide and Teacher Effectiveness Tool we will support teachers in changing practice around creating positive learning environments where learning is maximized for every student. This tool will be fully operational during the 2016-2017 school year, and ***an explanation of this tool will replace this letter in the final version of the Behavioral Learning Guides.***

This is an exciting time for Huntsville City Schools. We have grown tremendously during our first year of implementing the Joint Consent Decree. Aligning our work across the district is critical if we are to maximize all functions and create coherence for our schools. We believe the Behavioral Learning Guide and Teacher Effectiveness Tool will serve as a guide for supporting teachers in maximizing learning every day in our classrooms. We will evaluate this tool annually and make adjustments based on feedback received from our teachers. The real work happens in Huntsville City Schools' classrooms daily, and this is where we will put our focus.

Educationally,

Dr. Barbara Cooper

PROGRESSIVE INTERVENTION & DISCIPLINE

HCS has adopted a progressive approach to responding to student behavior. HCS will respond to and provide disciplinary consequences only for conduct occurring on school property or at school activities, except that HCS may respond to a student's behavior where there is an identifiable serious threat of physical harm to HCS, HCS student(s) or HCS employee(s). Using this approach, school personnel make every reasonable effort to correct inappropriate student behavior using logical, progressive consequences and restorative practices. Significant Disciplinary Consequences, such as out-of-school suspension and expulsion, are used for the most serious situations or as a last resort in a set of progressive consequences. When an exclusionary Disciplinary Consequence is used (i.e. in-school suspension, out-of-school suspension), it must be paired with one or more Interventions.

In a progressive approach to Intervention and discipline, students must have opportunities to learn from mistakes. This means that students will receive progressive Disciplinary Consequences paired with supports designed to change their behavior over time. This process ensures that a teacher's responses to inappropriate behavior are as much a part of the learning environment as teaching academic subjects. When a specific student behavior does not change using the lowest identified level of Disciplinary Consequence and/or Intervention, or the behavior increases in frequency, intensity, or duration, the next level of Disciplinary Consequence and/or Intervention is used in most cases. The progressive approach does not apply to most expellable offenses because those offenses usually threaten school safety.

School personnel will ensure that all Disciplinary Consequence and Interventions are selected, implemented, and assessed to help students do the following:

- Understand why the behavior is unacceptable and the harm it has caused
- Take responsibility for their actions
- Understand what they could have done differently in the same situation
- Learn social strategies and skills to use in the future
- Understand the progression of more serious consequences if the behavior reoccurs

Inappropriate behavior may be symptomatic of underlying problems that students are experiencing. It is critical that all school personnel be sensitive to issues that may influence student behavior and respond in ways that are supportive of student needs. The Disciplinary Consequences and Interventions described in this document should be carefully matched to the needs of the student and the overall context of the situation.

Determining Intervention(s) and/or Disciplinary Consequences

The Behavioral Learning Menu on page 21 should guide school personnel's decisions about how to respond to student misbehavior. It is critical that the following factors be considered prior to determining the appropriate response:

- Student's age, maturity and understanding of the impact of his or her behavior
- Student's willingness to repair the harm caused by the behavior
- Student's disciplinary record including the nature of prior behavior, the number of prior instances of behavior, the Interventions and consequences applied, etc.
- Nature, severity and scope of the behavior
- Circumstances and context in which the behavior occurred including the impact on the learning environment
- Student's Individualized Education Plan (IEP) or 504 Plan, if applicable

The Behavior Learning Matrix identifies levels of possible responses to inappropriate student behavior (**Response Levels**). Each behavior is assigned to one or more **Response Levels**. School personnel will use the **Response Levels** identified for each behavior. At the **Day-to-Day Response Level**, teachers will keep informal documentation of student behaviors (Class Dojo, calendars, call/conference logs, journals/think sheets). For behaviors requiring **Response Level 1** or greater, the student behavior will be documented in our new Discipline Reporting App.

Defining the Response Levels

Day-to-Day Responses to student behavior are teacher responses in the classroom that address minor inappropriate behaviors as part of the learning environment. **Level 1 Responses** to student behavior are also teacher responses but are more intensive and often involve pairing with an Intervention to support the student. **Level 1 Responses** may include support from additional personnel and might be provided in the classroom, outside the classroom, or in another environment. Examples of **Level 1 Responses** include taking a break in class (“TAB in”) or out of class (“TAB out”), counselor support and detention. All Level 1 Responses should be documented using HCS’ Discipline Reporting App.

Level 2, 3, and 4 Responses to student behavior are all school administrator responses. **Level 2 Responses** include in-school Disciplinary Consequences, and if a student requires multiple **Level 2 Responses**, he or she may be subject to out-of-school suspensions. **Level 3 Responses** include out-of-school suspensions as a Disciplinary Consequence. **Level 2 and 3** Disciplinary Consequences must be paired with an intervention.

If the behavior is assigned two or more **Response Levels**, the lowest level is used first except for those behaviors assigned both to **Day-to-Day** and **Level 1 Responses**. For example, if a student is being mildly disruptive, the teacher may be able to correct the student’s behavior using a **Day-to-Day Response**. If, however, the student’s disruptive behavior is more severe, the teacher may use a **Level 1 Response** to correct the student’s behavior even if the teacher has not previously attempted a **Day-to-Day Response**. For behaviors that are assigned **Response Levels 1 and 2**, school personnel must first use a **Level 1 Response** to address the behavior before using a **Level 2 Response**.

Progressive responses are confined to the current school year. At the beginning of each new school year, every student begins with a clean slate and responses to inappropriate and disruptive behavior should be the lowest assigned Response Level for a first occurrence.

Progressing from Response Level 1 to Response Level 2

For behaviors assigned **Level 1 and 2 Responses**, such as classroom disruptions, the teacher must first take steps to respond to the student’s behavior (**Level 1 Response**) before seeking administrative support (**Level 2 Response**). For these behaviors, a teacher should not refer the student to the office (using an Office Disciplinary Referral) until the teacher has responded to the student’s behavior with appropriate, progressive Disciplinary Consequences and an Intervention. If, after this, the student’s behavior continues or intensifies, the teacher should follow the Office Disciplinary Referral Procedure on page 12

An example of a progressive approach to student behavior is provided below.

Sample of Progressive Responses to Student Behavior:

1. *First occurrence* of the behavior – *silent warning*

- The silent warning should be a signal that the teacher has previously taught the class.
- This may look like a tap on the student’s desk or a particular hand sign.
- The purpose of this warning is to redirect the student without further disrupting the

rest of the class.

2. **Second occurrence** of the behavior – *have the student express the problem in a way that is developmentally appropriate (e.g., writing it out, speaking about the problem with the teacher, drawing a picture about it)*

- The teacher should give the student an age-appropriate opportunity to explain why the student is behaving in a way that fails to meet expectations (e.g. providing the student with paper or giving them the opportunity to speak privately with the teacher).
- This explanation will often reveal the problem that is driving the student to a particular behavior.
- This is a Level 1 Response and should be documented using the District’s Discipline Reporting App.

3. **Third occurrence** of the behavior – *communication with the student’s parent/guardian*

- The call should be the same day as the student’s behavior if at all possible.
- The teacher should focus on seeking support of the family in addressing the student’s behavior.
- The teacher should keep a call log in order to track the calls made and the results of those calls.
- This is a Level 1 Response and should be documented using the District’s Discipline Reporting App.
- In addition to the call to the student’s parent/guardian, the teacher should select an appropriate Intervention to meet the student’s need and track this using the Discipline Reporting App.

4. **Fourth occurrence** of the behavior – *refer the student to the office*

- Follow the Office Disciplinary Referral Procedure on page 12.

PLEASE NOTE: The process listed above is not intended to be a rigid requirement for every teacher at every school. This is merely a sample of a progressive approach to responding to a student’s behavior. In some cases, it will be appropriate for a teacher to depart from the order given above. What matters in any progressive response to a student’s behavior is that the sequence of responses includes, at a certain point, an Intervention that looks at the reason for the behavior and why the normal sequence of classroom responses is not working. It is also important to note that these responses are most effective when they are understood by all students in a class as norms, and when students have had opportunities to practice them as individuals and as a class.

Progressing from Response Level 2 to Response Level 3

For behaviors assigned **Response Levels 2 and 3**, such as damaging, defacing, or destroying property belonging to a school, person, or the District that has a value of \$50 or more, the school administrator must first use a **Level 2 Response** to the behavior. Such a response will usually include an in-school Disciplinary Consequence, like assignment to an in-house learning center, paired with an intensive Intervention. The school administrator should not assign the student to out-of-school suspension until he or she has responded to the student’s behavior with an in-school Disciplinary Consequence and Intervention.

If the student is referred to the office for the same behavior after the administrator has tried a **Level 2 Response**, including one Intervention, the administrator should determine whether the Intervention in place is an effective one. If the administrator finds that the Intervention has

been ineffective, the administrator may repeat the in-school Disciplinary Consequence and begin a new Intervention. The administrator should work with the Problem Solving Team to determine if an Intervention has been effective or if the student needs a higher level of support. If the administrator and Problem Solving Team determine that the student needs a higher level of Intervention, the administrator may use a **Level 3 Response**. **Level 3 Responses** include out-of-school Disciplinary Consequences paired with the highest level of Intervention, including potentially seeking District support from a Multi-Disciplinary Team.

OFFICE DISCIPLINARY REFERRAL PROCEDURE

The Discipline Reporting App (“DRA”) helps school personnel track responses to student discipline electronically. Additionally, Office Disciplinary Referrals will be made through the DRA using the procedures set out below. There are two different times that are appropriate for a teacher to complete an Office Disciplinary Referral: when a teacher responds to a student’s behavior using multiple **Level 1 Responses** without success or when a **Level 2 or 3 Response** is appropriate.

For Referrals Following Repeated Level 1 Responses

- Behaviors assigned to the **Day-to-Day** and **Level 1 Responses** should be addressed by teachers in the classroom and should not result in an Office Disciplinary Referral upon the first occurrence of the behavior.
- If a student repeats behaviors that are assigned **Day-to-Day** and **Level 1 Responses**, the teacher should respond with the progressive Disciplinary Consequences and Interventions set out in the Behavioral Learning Menu and Matrix, on pages 21-33, and should document each **Level 1 Response** (including the Disciplinary Consequence and Interventions) in the Discipline Reporting App.
 - If the student continues to repeat his or her behavior, the teacher or administrator should determine whether the prior **Level 1 Responses** to the student’s behavior and/or the student’s particular needs warrant involvement of the Problem Solving Team. If so, then the teacher or administrator should begin the PST process for the student.
- If the student’s repeated behavior is assigned to a **Level 2 Response** and the teacher believes that administrative support is necessary, the teacher should complete an Office Disciplinary Referral using the Discipline Reporting App.
- When an administrator receives an Office Disciplinary Referral, the administrator will check the teacher’s prior documentation.
- If the teacher has properly documented his or her **Level 1 Responses** and an Intervention, the administrator must determine which Level 2 Disciplinary Consequence and Intervention are appropriate.

For Referrals As Level 2 or 3 Responses

- If the student’s behavior has been assigned a **Level 2 or 3 Response** as the lowest response level, the classroom teacher has to make a determination: does the student’s behavior create a threat to school or class safety?
 - If the student’s behavior does not create a threat to school safety, the teacher should complete an Office Disciplinary Referral using the DRA and should contact the administrator for support.
 - **If the student’s behavior creates a threat to school safety**, the teacher should immediately contact the school administrator and the Campus Security Officer. If necessary, a teacher or the responding administrator and Campus Security Officer

may also contact a School Resource Officer, if available at the school. Once the threat to school safety is over, the teacher should complete an Office Disciplinary Referral using the DRA.

NEW DISTRICT-WIDE TOOL: MULTI-DISCIPLINARY TEAMS

Multi-Disciplinary Teams will consist of adults who possess expertise in educational instruction, drug and alcohol abuse counseling, psychology and student mental health, social work, student behavior, and other disciplines that may be needed to support students. The MDTs will work with school-based Problem Solving Teams and administrators to deliver support resources to the students with the greatest needs in each school. Referral to a MDT will be a **Level 3** administrative Intervention.

RESPONSE STRATEGIES

Response Strategies are actions used in the moment that behavior is occurring or directly following the behavior. The goal of these strategies is to stop the behavior while providing an opportunity for the student to regain self-control in a way that maintains his or her dignity. Sometimes Response Strategies are used quickly and occur with minimal disruption to the learning environment. More serious behaviors may require the support of administrative team members inside or outside the classroom. Considerations in determining an appropriate Response Strategy include the behavior that is being demonstrated and which strategy is most likely to support the student to re-engage in learning. The following list defines examples of Response Strategies used in Huntsville City Schools to support student behavior:

Redirection

Redirection indicates to the student that he or she is not adhering to behavior expectations.

Examples of strategies include:

- *Verbal redirection or correction* – A statement telling the student what is an acceptable behavior. The teacher does not specifically point out the inappropriate behavior and what not to do. Instead, the teacher focuses on the desirable behavior from another student who is exhibiting the positive behavior.
- *Problem-solving with a student about his or her behavior* – The teacher works to establish a warm personal relationship with the student, to deal with present behavior in a non-confrontational way, and to have the student commit to a plan for future appropriate behaviors.
- *Increasing teacher proximity to the student* – The teacher puts him or herself closer to students who are showing signs of getting off task. If a teacher knows from prior experience that a particular group of students is likely to disrupt class, the teacher can stand or sit close to them while leading an activity or giving directions. This will usually quell a fair amount of the unwanted behavior.
- *Using factual, objective language to define expectations and address behavior.*
- *Changing student seating* – Within the classroom, the teacher will move the student to a location that will assist in the correction of the behavior.
- *Reinforcing positive student behavior* – The teacher will praise and reward desired behavior, which increases the likelihood of the student repeating behavior in the future.
- *Re-teaching behavior expectations* – The teacher identifies and redefines expectations. The teacher monitors whether students are meeting expectations, and acknowledges and encourages expected behavior. The teacher must teach both expected words and actions.

Take a Break (TAB) In

TAB In provides an opportunity for students to correct their behavior and is available for all students. This involves students moving to a designated space within the classroom where they quietly pull themselves together and then rejoin their classmates.

Take a Break (TAB) Out

TAB Out provides an opportunity for students to correct their behavior in a new environment for a limited time not to exceed 15 minutes. Students move to another teacher's classroom where they pull themselves together and reflect on their behavior. The teacher receives the student back into the classroom in a positive manner.

Concerns for Student Welfare

Often educators will find themselves concerned about a student’s welfare or observe uncharacteristic behavioral changes. These behaviors may affect the learning environment or escalate in to crisis situations.²

Examples of uncharacteristic behaviors include:

- Exhibits erratic or sudden changes in classroom performance
- Exhibits uncharacteristic behavioral, mood, attitude or appearance changes
- Is uncharacteristically inattentive, unresponsive, angry, argumentative or aggressive

When confronted with these issues, please refer to Problem Solving and Assessment section on page 18.

Loss of Privileges

The teacher assigns a logical consequence that requires the student to lose a privilege.

Examples include:

- If a student runs in the hallway or bumps into others in the hallway, the student must walk next to the teacher when traveling through the hallway.
- If a student engages in disruptive behaviors during class time, the student must walk during part of recess and talk with the teacher before free play

Fix-It

The teacher facilitates a process that allows the student to “fix” the undesirable behavior this includes:

- If a student is engaging in an off-task behavior, the student must complete the task at another point during the day.
- If a student says something hurtful to another student, the student apologizes and does something kind for the hurt student.
- If a student bumps into another student and causes the student to drop items, the student apologizes and assists in picking up the items.

Confiscation

The teacher takes a student’s property for a limited time. Depending on the object confiscated, students may receive a warning first. Depending on the item or the number of times the student has brought the item to class, the item may be taken until the end of the day or the end of the year. Confiscation may also be a Disciplinary Consequence.

PBIS Coupon System

A PBIS coupon system awards students coupons for expected behaviors: being on time/punctuality; following directions; completing assignments; helping a peer; etc. Students may redeem the coupons for different options, as determine by the school, such as a piece of candy or other treat.

Reflection Sheet

If developmentally appropriate, students will write exactly what happened in their own words and reflect on how they could have made different choices that would result in a positive outcome.

² Borrowed from Western Michigan Student Affairs found at <https://wmich.edu/studentaffairs/concern>

De-escalation Techniques

De-escalation is appropriate when a potentially volatile confrontation threatens to erupt between individuals on the spot. This includes the avoidance of power struggles between student and teacher.

Examples of strategies include³:

- Proximity** When facing an upset person, it is almost always better to be farther away than too close.
- Pace** When we get nervous we tend to rush our responses or think too deeply. Be conscious of when your anxiety level is heightened and slow down when required and speed up when necessary.
- Purpose** Anything you say and do during tense situations may communicate a real or imagined meaning to the upset person. Act and speak with purpose.
- Process** Know your students. Stay flexible and adjust your responses and behavior to the situation without allowing yourself to get caught up in the process of de-escalation.
- Plan** Whenever possible, think through anticipated difficult sessions and meetings. Imagine as many “what ifs” as you can and develop plans of how you will respond.
- Practice** Practice how you will be with that challenging person. Remember, perfect practice makes perfect.
- Presentation** Give prior thought to the form and style of how you will present upsetting information. Some people need to receive bad news alone. Others need to have visible support when dealing with stressful situations. Acknowledge the student’s point of view.
- Persuasion** In order to be persuasive it is important that you have accurate and relevant information about the upset persons’ issues. Do your homework
- Pre-empt** Sometimes you have an idea as to the other person’s agenda. If you think that what you have discovered is a major issue, present your solutions early on to prevent the individual from beginning to escalate.

DISCIPLINARY CONSEQUENCES

Disciplinary Consequence is defined as an action that supports a student in repairing harm resulting from his or her behavior and any necessary action to maintain the safety of the school community. Many Disciplinary Consequences may be more punitive in nature than Response Strategies or Interventions, but punishment is not the sole focus of Disciplinary Consequences. Disciplinary Consequences do not necessarily have to result in a loss of instructional time. The following list defines examples of Disciplinary Consequences used in HCS:

Verbal Warning

The classroom teacher reminds a student what he/she is expected to do.

Student Conference

This is a private, brief, non-confrontational conversation with student.

Restitution

Restitution is the restoration or replacement of lost, damaged or stolen property of Huntsville City Schools. This *does not apply* to personal property of educators and students.

³ Borrowed from “Ten Ps of De-escalation” found at http://www.pmtassociates.net/Top_10_Deescalation_Tips.html

Restorative Practices

Restorative practices mend the relationship between the student and his or her learning environment. These practices may include educators and/or other students.

Restorative Action: An activity that helps students think about their actions, and how they can "make things right."

Restorative Conversation: Student is supported in reflecting on his or her behavior and developing and implementing a plan using four key questions: What happened? Who do you think has been affected? What needs to happen to make things right? How can we be sure this won't happen again?

Parent/Guardian Contact

The teacher contacts the parent/guardian to inform them of the student's behavioral issues. This is a less severe consequence than a Parent/Guardian Conference and could be accomplished by any of the following:

- Note/ Behavior Checklist
- Email/Text (Regarding behavior, emails should only request a phone or face-to-face conference with the parent/guardian.)
- Phone call (The teacher must leave a message for the parent/guardian to contact the teacher or actually talk with the parent/guardian.)

Parent/Guardian Conference

Parents/guardians, staff and the student sit down together to discuss the student's behavior and identify potential solutions to address the cause of the behavior.

In-School Learning Center (Level 2 Response)

A student is removed from the classroom environment and assigned school work within the school for grades Pre-K through 6.

Out-of-School Suspension (Response Level 3)

Out-of-School suspensions are not generally available as a Disciplinary Consequence for students in Pre-K through 2nd grade.

In limited circumstances where the principal believes that a student in grades Pre-K through 2 is exhibiting behaviors that pose an imminent, ongoing risk to the health or safety of the student or others, the principal may issue an Out-of-School suspension for the student.

For third through sixth grade students whose behavior needs a **Level 3 Response**, the student may be subject to an Out-of-School suspension for up to 3 days unless prohibited by the IDEA and/or state law.

PROBLEM SOLVING AND ASSESSMENT

When students demonstrate a pattern of inappropriate behavior or more significant single instances of inappropriate behaviors, it is necessary to examine the underlying causes(s) of the behavior and the context in which it occurs. In these cases, there should be a referral to the school's Problem Solving Team.

Problem Solving Teams (PST)***Defining the Problem Solving Team***

The PST is an interdisciplinary team of adults, led by the school principal or his/her designee, that uses the problem solving process to serve two primary functions: (1) ana-

lyze data to select and evaluate social emotional and behavioral interventions, and (2) address the needs of individuals students who are not making expected disciplinary progress. PST members use assessments to determine whether students have underlying issues that contribute to the behaviors. Parents/Guardians are notified when a teacher refers a student to the PST process.

Problem Solving Team Screening Process

The PST process is reserved for those students who need a team-based support approach. The PST approach is most effective when it is implemented early enough to be effective. If a teacher determines that a student's behavior is repeated or significant, the teacher should work with the PST to develop research-based Interventions and individualized strategies that address the student's behavior for the teacher to use in supporting that student. The PST will work to develop resources, such as a Behavioral Intervention Plan, to help the student.

Functional Behavioral Assessment (FBA)

A FBA is a formal assessment of a student's behavior focused on identifying the purpose behind the student's behavior. A FBA is used to better understand why a student behaved inappropriately.

Mental Health Referral

For students with immediate mental health needs, a referral may be made to the district's mental health provider. The program works with school staff to provide proactive strategies and professional development to support the student. This program partners with families to connect the student with needed resources in the school and surrounding community.

INTERVENTION

Interventions address the underlying cause of behavior including unmet needs, lagging skills, instructional strategies, and the environment. While not intended to be sequential or exhaustive, the following list defines examples of Interventions used in HCS to support student behavior:

Replacement Behaviors/Coping Strategies

These are behaviors that are taught to take the place of behaviors that are inappropriate for the situation or setting. An example is teaching a student to ask politely to use a classmate's calculator rather than taking it without permission, or teaching students ways to deflect conflict in specific situations.

Behavioral Contracts

Behavior contracts are formal written agreements regarding behavior, which are negotiated between a student and a school staff member, parent/guardian, or other individual. Behaviors contracts should, at minimum, include the following:

- A clear definition of the behavior the student is expected to exhibit
- The positive consequences for performing the desired behavior
- The negative consequences for not performing the desired behavior
- What the student, and each adult involved, is expected to do
- A plan for maintaining the desired behavior

Regulation Breaks

These proactive breaks may be scheduled for students when there is a pattern of behavior that needs to be prevented from recurring. Regulation breaks can take place in a variety of locations including within the classroom or a safe and private Intervention space.

School-to-Home Communication

This protocol is designed to ensure that staff and parents/guardians are "on the same page" with respect to student behavior at home and at school. The goal is for ongoing, meaningful sharing of information and may include, but is not limited to, a communication notebook, daily emails, etc.

Mentoring and Advising

Trained faculty members or others act as advisors and mentor a group of students. The purpose of advisory is to:

- Set goals
- Identify and understand the student's concern
- Share the adult's concerns about the same issue
- Generate solutions
- Explore solutions and choose one that is realistic and satisfies both the student and the adult

School Counseling Services

Counselors identify and address the harm caused by the behavior of one or more students, and develop a plan to correct the situation. Counselors may also use small group Interventions to focus on skill development and coping strategies to prevent potential problems. Examples of skills targeted through group interventions include managing emotions, coping with stress, problem solving, and communicating effectively.

Behavior Support Plans

Behavior Support Plans are developed based on a Functional Behavioral Assessment (FBA). The FBA results are used to develop a plan that establishes proactive and responsive Interventions. The Plan addresses how the student interacts with the environment and replaces inappropriate behavior with pro-social behavior.

SURRENDER FOR SAFETY

In developing this document, District and school-level personnel learned of a policy called "Surrender for Safety" that is used by other school districts around the country. This policy recognizes that students make mistakes and may unintentionally bring inappropriate items to school, but also that students can learn from these mistakes.

If a student voluntarily surrenders possession of a prohibited item to school personnel before being asked about the item, being discovered to be in possession of the item, and using the item, the student will not be subject to the Disciplinary Consequences called for by the Behavioral Learning Matrix.

Prohibited items include any weapon, other than a firearm as defined by federal law, any other inappropriate item, such as, but not limited to, alcohol, drugs, or any other inappropriate item/material (i.e., fireworks, smoke bombs, etc.). Using an item includes, but is not limited to, threatening any other student and/or actually harming another student with a weapon or drinking, ingesting or taking alcohol or drugs.

Behavioral Learning Teacher and Administrator Menu

Common, Everyday Teacher Responses, Disciplinary Consequences and Interventions			
	Response	Consequences	Intervention
Day-to-Day	<ul style="list-style-type: none"> • Redirection • Take a break, in or out of the classroom • Loss of privilege • Fix-It • Confiscation • Reflection sheet • De-escalation 	<ul style="list-style-type: none"> • Verbal warning • Loss of privilege • Confiscation • Detention • Parent/Guardian contact • Student conference 	<ul style="list-style-type: none"> • Teach a replacement behavior • Create a behavior contract • Provide regulation breaks • Collaborative problem solving

	<ul style="list-style-type: none"> • Referral to the Multi-Disciplinary Team's Problem Solving Team • If a student repeats behaviors that would, at the secondary level be responded to with Level 4 Responses, contact the Department of Behavioral Learning for guidance. 		

HCS Expects its Students to:	When Students Fail to Meet Expectations by:	Day-to-Day In-Class Responses by the Teacher	Level 1 Classroom Responses, Consequences and Interventions	Recommended Teacher Responses and Disciplinary Consequences for Student Behavior: <small>(The following options are examples for teachers and are not in any required or sequential order. For a complete list of Response Strategies, Consequences, and Interventions see pages 15-20.)</small>	Level 2 Administrative Responses and In-School Consequences	Level 3 Most Intense In-School Responses and Out-of-School Consequences
This space describes a particular category of behaviors, such as "Academic Dishonesty."						
This space lists the behaviors that HCS expects of its students for a given category of behavior. As you can see below, there are three different behaviors that HCS expects of its students regarding Academic Dishonesty.	This space describes student behavior that fails to meet HCS's expectations for its students. Each cell will complete the sentence started by the words "When Students Fail to Meet Expectations by:" listed above. For example, the cell may say "Plagiarizing, committing forgery, or cheating on a minor assignment (i.e. a classroom worksheet, a quiz, or other minor exam)."	If there are dots in either of these two columns, the teacher should respond to the student's behavior before referring the student to a school administrator. School staff should always seek to first use the lowest response level (the dot furthest to the left) when responding to a student's behavior. A teacher should only use higher level responses if the lower level ones have failed.	If there are dots in either of these two columns, teachers and other school staff should refer the student to the office for administrator support. Like other school staff administrators should always seek to first use the lowest response level (the dot furthest to the left) when responding to a student's behavior. In most circumstances, an administrator should only use higher level responses if the lower level ones have failed to help the student correct his or her behavior.	This space contains a set of recommended teacher responses to the student's behavior. It also contains recommended Disciplinary Consequences for a particular behavior. These are not required, but are merely recommendations. As a reminder, responses are strategies that a teacher may use to help a student regain self-control during or immediately after the student has performed an inappropriate behavior. A Disciplinary Consequence, if used, is usually paired with a response.	If there are dots in either of these two columns, teachers and other school staff should refer the student to the office for administrator support. Like other school staff administrators should always seek to first use the lowest response level (the dot furthest to the left) when responding to a student's behavior. In most circumstances, an administrator should only use higher level responses if the lower level ones have failed to help the student correct his or her behavior.

GLOSSARY OF TERMS

Bullying – Unwanted, aggressive behavior among school-age children that involves a real or perceived power imbalance. The behavior is repeated, or has the potential to be repeated, over time. The bully and victim may have serious, lasting problems, such as depression or anxiety.

Disciplinary Consequence – The consequence, usually involving a specific sanction, for a student’s failure to meet HCS’ expectations for student behavior. This is described in detail on page 17.

Discipline Reporting App (“DRA”) – This is Huntsville City Schools’ new, user-friendly software application designed to help school personnel track student behaviors and the associated Response Strategies, Disciplinary Consequences, and Interventions.

Disruption – Intentional actions that result in interference with instruction or prevent other students from accessing instruction or completing their school work. *Disruption does not include occasionally acting in a manner that is not aligned with classroom expectations (i.e. occasionally blurting something out or having a side conversation with another student).*

Gang-Affiliated – of or related to gangs, gang culture, or gang signs. This may include certain combinations of colors, symbols, or any other insignia that pertains to a gang or gang activity.

Intervention – A measure or series of measures taken by school staff to address a student’s unmet needs. The purpose of these measures is to remedy the cause of student’s behavioral issues. This is described in detail on page ____.

Lewd – sexual, in a rude or offensive way

Non-Educationally Required Device – Any device that is not permitted for use as part of a teacher’s instruction or to complete school work, whether electronic or otherwise, including cellular telephones, personal music or video players (e.g. iPods or MP3 Players), hand-held videogame devices (e.g. PSP or Nintendo DS), electronic tablets, cameras and other image, voice, or video recording devices.

Personal Use – An amount of drugs or alcohol intended for use by a single person. For example, a single can of beer or a small amount of marijuana. If the amount in a student’s possession exceeds a single use of the substance, an administrator can consider this fact in determining whether a student is engaging in the distribution of a substance.

Positive Behavior Interventions and Supports (“PBIS”) – PBIS is nationally recognized approach designed to assist school personnel in creating a positive school climate for students. PBIS provides school personnel with progressive guidelines of evidence-based behavioral responses and Interventions. The goal of this program is to enhance academic and social behavior outcomes for all students.

Possession – Having on one’s person or in one’s backpack, locker, purse, vehicle (if on school property or at a school event), or any other storage container owned by the student.

Private parts – The body parts that are traditionally covered by a bathing suit.

Problem Solving Team (“PST”) – An interdisciplinary team of school personnel that uses a student’s data and information to develop Interventions to respond to that student’s unmet academic or behavioral needs.

Response Strategy – An immediate reaction from school personnel designed to calm a student, end a student’s misbehavior, and help a student regain self-control in a dignified manner. Response Strategies may be coupled with a Disciplinary Consequence or Intervention on a case-by-case basis. This is described in detail on page ____.

Restorative Practices – A system designed to help students build better relationships with each other and with school personnel and, when there is a breakdown in those relationships, to help students repair the harm caused by their actions.

Student’s Identify Characteristic – Any characteristic expressly defined and protected by federal, state or local law, regulation or ordinance including ancestry, creed, gender, gender identity, gender expression, marital status, national origin, parental/guardian status, pregnancy, race, religion, or sexual orientation. This definition also includes any disability including physical, mental, emotional or learning disabilities.

Synthetic Drugs – Any artificial or man-made drug including synthetic cannabinoids, which are commonly known as “synthetic marijuana,” “K2,” or “Spice,” and sometimes labeled as “herbal incense” or “potpourri” and synthetic cathinones which are commonly known as “bath salts” or “jewelry cleaner”.

APPENDIX A: DRESS CODE

We are committed to preparing our students for college and careers beyond high schools. In order to be successful in either area, students must dress in a neat, clean and appropriate manner in clothing that encourages an atmosphere conducive to learning, work and discipline. Students will not wear any article of clothing or display any insignia or sign that shows disrespect for any person, creed, race, color, sex, or nationality, or that may lead to a disruption of the learning environment. Our goal to prepare students for the future aligns with state educational authorities and court decisions which have determined that style of dress and hair should not disrupt classes, interfere with learning, prevent instruction, and should comply with state health and safety standards. Parents/guardians are expected to monitor students' dress.

The following is a non-exhaustive list of dress guidelines that apply to HCS students:

- Clothing that displays immoral or illegal behavior is not permitted. Any article of clothing, jewelry, or haircut depicting gangs, violence, sex, drugs, alcohol, mutilation or language that could be considered obscene or vulgar will not be permitted.
- Jewelry that could be used as a weapon is not allowed.
- All shorts, skorts, skirts and dresses must fit securely around the waist and come *no higher than three inches above the bend of the back of the knee*. Slits in skirts and dresses must not be extreme or revealing.
- Except for religious purposes, hats and head coverings may not be worn in school buildings. Sunglasses, gloves, bandanas, and house slippers may not be worn in school buildings.
- Students may not wear pajamas.
- Bib overalls and/or suspenders must be snapped, hooked and/or buttoned and kept on shoulders. Belts must be buckled.
- Pants may not be oversized or allowed to sag. Pant legs must be uniform length and may not drag on the floor.
- Pants or Jeans may only have holes at the knee or below. Pants or Jeans that have holes above the knee are not allowed, even if material is beneath the holes.
- Undergarments must not be exposed.
- Private parts must be covered
- Sleeves must be at least 3" across the shoulder.
- Revealing tops, spandex, or other clinging garments are not permitted.
- Shirts that bare midriffs when arms are raised are not allowed.
- Students may wear yoga pants, tights, leggings, or jeggings as long as they are used as an undergarment covered by shorts, skirts, or dresses that are at least *no higher than three inches above the bend of the back of the knee*.
- Hoodies and sweatshirts must fit appropriately. Hoods should never be on in the building.

Please dress appropriately for school. If you think it may be inappropriate, it probably is. Use good judgment. Here are some simple guidelines:

- Wear clothes that fit properly.
Avoid wearing clothes that are too tight or too loose and are revealing.
- Dress for safety.
Avoid wearing anything that could cause you to hurt yourself or others, even by accident. (*i.e. wearing "slides" or flip flops during P.E.*)
- Dress positively.
Avoid wearing anything that may be offensive.

Think about what you are wearing and how it reflects on you. You will be seen by other students, teachers, staff, and the community. Put your best foot forward and show the world you respect yourself and your school. We encourage your individuality, but we also encourage you to dress for success.

You may be asked to change into clothing available at the school or wait in ILC while a parent brings a change of clothes. Disregard for the dress code will lead to disciplinary action, in accordance with the Behavioral Learning Guide.

APPENDIX B: SUSPENSION PROCEDURES

In-House Learning Center

- A student may not be placed in ILC for more than five (5) school days at any one time and no more than 20 school days in the aggregate during any one (1) school year (pay particular attention to the note below concerning students with disabilities).
- The principal will follow HCS policies with reference to student records.
- Prior to placement in the ILC, the principal/delegate will advise the student of the charge(s) and the student shall have the opportunity to tell what occurred.
- Prior to assigning a student to ILC, a reasonable effort will be made to notify the parent and to have a conference by phone or in person. If the parent cannot be reached, the student will be given notice and a copy will be mailed to the parent.

Out-of-School Suspension

- A student may not be suspended for more than ten (10) school days at any one time and no more than twenty (20) school days in the aggregate during any one school year (pay particular attention to the note below concerning students with disabilities).
- The principal will follow HCS policies with reference to student records.
- The principal/delegate will advise the student of the charge(s) and the student shall have the opportunity to tell what occurred.
- While on Out-of-School Suspension, the student will be permitted to complete work or tests missed during the suspension.
- Prior to suspending a student from school, a reasonable effort will be made to notify the parent and to hold an informal conference.
- If the parent cannot be reached prior to the end of the school day, the student will be given a Notice of Suspension (Form HCS330-01) stating the charge(s) in writing against the student and requesting a conference with the parent. One copy will be mailed to the parent, and the administrator will continue to try to contact the parent. The student shall remain in school, unless under an emergency situation, until the end of the school day or until released to the parent or designee.

Suspension Notice Filing and Distribution

The original is forwarded to the Department of Behavioral Learning (Superintendent's Office). One copy is distributed to the student, one copy to the parent, one copy to be placed in the student's cumulative record, and one copy to the principal. If the student is disabled, a copy should be given to the student's teacher of record.

NOTE: A student with disabilities may not be suspended out of school for more than ten (10) days in a school year. Any more time in suspension requires IEP Committee action. Only an IEP Committee may change the placement of a student with disabilities. All students, including students with disabilities, who are suspended will be permitted to complete work or tests missed during the suspension.

APPENDIX C: EXPULSION PROCEDURES

Expulsion is not typically an appropriate response to student behavior for students in Pre-K through sixth grade; however, these procedures have been included for reference.

General

- If a student is suspended pending an expulsion hearing, the principal/delegate will follow the suspension policy and procedure and on the suspension notice form will suspend to the hearing panel; exceptions being disabled students. See above NOTE under "Suspension" as to students with disabilities.
- When an expulsion offense is committed, the principal immediately must notify the Security Supervisor and the Behavioral Learning Department. If the student has a disability, the Special Education Services department also must be notified.
- If a suspected controlled substance is involved, HPD must be notified.

Superintendent-Initiated Expulsion

The Superintendent, if the situation warrants, may recommend that a student be expelled without prior recommendation from the principal. In such cases, the Superintendent will follow the Principal-Initiated Expulsion procedures (see below).

Principal-Initiated Expulsion

The principal/designee will review the allegations and evidence against a student, advise the student of the charge(s), and allow the student to tell what occurred. After doing so, the principal/designee is responsible initially for determining that a student's behavior warrants an expulsion. A reasonable effort will be made to notify the parent.

- The principal will notify the Behavioral Learning Department by letter of the recommendation for expulsion within three (3) school days after the date of the commission of the offense.
- This letter must have attached all information available, including, but not limited to, the following:
 - Copy of the completed Suspension Notice, stating the charges in writing.
 - Specific description of the student's behavior, including date, time, and place and supporting facts.
 - A written report giving the suspected student's version of what occurred.
 - Names, addresses, and telephone numbers of persons involved in the incident: suspect(s), victim(s), and witness(es).
 - Signed and dated statement(s) of persons involved in the incident, if possible. (Use Form HCS330-39.)
 - Xerox copy of any contraband.
 - List of special program(s), if any, in which student is enrolled or being considered for enrollment.
 - Verification of student's receipt of the Behavioral Learning Guide.
 - Past disciplinary record of student involved.
 - Academic record of student, including a copy of the current report card and a copy of the roll call card.
 - Details of extenuating circumstances.
 - Date(s) of principal's conference(s) and names of those present.

Procedures for Hearings

Prior to expulsion, students are entitled to a hearing conducted by a hearing panel that will adhere to the following procedures:

- The parent shall be given verbal or written notice of the charge(s) against the student and the time, date, and place of the hearing at least 72 hours prior to a hearing. At the time that the notice of an expulsion charge is made, HCS will provide the student and the parent/guardian with the following: copies of evidence supporting the expulsion; the rules governing the hearing; and notice that the student may have a parent/guardian or family member and an advocate of his or her choosing present to participate in the expulsion hearing and that the student may present witnesses and cross examine live witnesses presented by HCS at the expulsion hearing.
- The hearing panel will normally conduct a hearing within 14 school days after the date of the commission of the offense.
- The principal or other person assigned by the Behavioral Learning Department shall present the case for expulsion of the student. Witnesses for the proponent of the expulsion will be notified to be present by the school or the Security Supervisor.
- At the hearing, the hearing panel shall give the student an opportunity to admit or deny the charge(s).
- If the student denies the charge(s), an explanation of the evidence will be provided and the student will be given an opportunity to tell what occurred.
- The case may be presented by statements made by the witness(es). The hearing panel may permit witness(es) by the proponent of the expulsion, but the hearing panel is not required to call or permit any accusers to be present. Additionally, student witnesses, including accusers, may provide evidence by written statement which may be redacted. The decision as to these issues shall rest in the discretion of the hearing panel. The student is permitted to present adult witnesses, but if a witness's testimony is redundant or not relevant the hearing panel can decide not to hear that witness.
- Ordinarily, no attorney will be present in an advisory capacity for the expulsion hearing. If the student's parent chooses to have an attorney present, the principal/designee also may have an attorney present in an advisory capacity. The student's parent must give the hearing panel notice, 24 hours prior to the hearing, of the decision to have an attorney. Failure to do so may result in the rescheduling of the hearing or the hearing panel's denying the participation of the attorney in the hearing.
- After following the above procedures, the hearing panel, on the basis of all facts presented, shall determine whether the student did or did not commit an offense, what offense, if any, was committed and whether the recommendation of the principal to expel is accepted or overruled. The hearing panel shall prepare a written decision, which shall include the charges against the student; the time, date, and location of the hearing; a summary of the evidence presented at the hearing; the conclusions drawn from the evidence; and the disposition of the student. If extenuating or mitigating circumstances exist, the hearing panel shall document these circumstances.
- In the event that a student with disabilities is alleged to have committed an offense expellable under the Behavioral Learning Guide, the hearing panel determines the guilt or innocence only. The decision regarding an appropriate placement is determined by the IEP Committee.

- The following persons shall be notified of the hearing decision:
 - The student's parent (by certified mail)
 - The Behavioral Learning Department
 - The Principal
 - The Special Education Services Department (for students with disabilities)
 - The Superintendent
 - The Deputy Superintendent
 - The Security Supervisor
- A recording shall be made of the hearing and shall be kept for no less than six (6) months from the date of the hearing.
- The written record of the hearing shall be kept for two (2) years.

Appeal of Hearing Decision For Expulsion

If the student's parent is dissatisfied with the decision of the hearing panel in cases in which the hearing panel upholds the recommendation for expulsion, the parent may file an appeal. The appeal procedures are as follows:

- The student's parent must file a written request for an appeal.
- The written request for an appeal must be addressed to and mailed or given to the Superintendent.
- The written request for an appeal must be postmarked or hand delivered on a date no more than seven (7) calendar days after the postmarked date or date of hand delivery of the written notification of the hearing panel's decision. If the written request for an appeal is not made on time, the hearing decision will be final.
- The Superintendent, upon receipt of a timely filed written request for an appeal, will request the documented evidence of the case including the findings, the conclusions, the disposition, and the tape recording.
- The Superintendent or designee shall review the case on the basis of the record. No new evidence shall be admissible.
- Within seven (7) working days after receipt of the appeal, the Superintendent will make a written decision to adopt, modify, or disapprove all or any part of the hearing panel's findings, conclusions, or disposition.
- A copy of the Superintendent's decision shall be sent to the following persons:
 - The student's parent (by certified mail)
 - The Behavioral Learning Department
 - The Principal
 - The Special Education Department (for disabled student)
 - The Superintendent's Office
 - The Security Supervisor
- If the parent is dissatisfied with the Superintendent's decision to uphold the recommendation for expulsion, the parent may file an appeal to the Board of Education using procedures adopted by the Board.
